EDUCATION

GITAM

Visakhapatnam, Andhra Pradesh

Bachelors in Computer Science And Engineering (GPA-9.03)

Graduation Date: Aug 2026

Career Objective

Enthusiastic Software Engineer with experience in full stack development and proficiency in object-oriented programming languages like Python and Java. Currently pushing my boundaries with a project in GoLang and actively exploring the field of AI/ML. Proven teamwork and leadership skills honed through various projects and hackathons. I'm a lifelong learner with a strong desire to improve.

WORK EXPERIENCE

StellaX

Full Stack Developer

Remote

Nov 2023- April 2024

- Led a cross-functional team to conceptualize, design, and develop a fully responsive website.
- Collaborated effectively with clients to gather requirements, define the technology stack, and ensure project alignment with business goals.
- Utilized VSCode, ChatGPT, Figma, and GitHub to efficiently build and maintain the website codebase, adhering to best practices and security standards.
- Spearheaded developing and integrating a custom chatbot to enhance user experience and engagement on the website.
- Delivered a highly responsive and user-friendly website, meeting all client expectations and exceeding industry standards.

Purple Media

Visakhapatnam, Andhra Pradesh

UI/UX Designer

Dec 2023 - Jan 2024

- Collaborated with clients and upper management to translate their design visions into creative and user-friendly UI/UX solutions.

- Leveraged Figma and WordPress to design and implement innovative website and catalogue experiences for diverse clients.
- Conceptualized and developed original UI/UX designs from scratch, showcasing a strong sense of creativity and visual design expertise.
- Earned recognition as "Cadet of the Week" for outstanding contributions, including the successful design and implementation of a website and catalog for a steel furniture company.

LEADERSHIP EXPERIENCE

GITAM AERO ASTRO CLUB

Visakhapatnam, Andhra Pradesh

President

May 2024 - Present

- Spearheading initiatives to enhance inter-team collaboration within the club.
- Implementing outreach programs and workshops to ignite interest in robotics, space exploration, and computer programming.
- Establishing partnerships with institutions such as MIT and AIAA for a large-scale technical fest.
- Engaging with competitions hosted by IITs and IISc, providing exposure and networking opportunities for club members.
- Initiating mentorship programs for professional and personal development of members.
- Organizing guest lectures, seminars, and panel discussions with faculty advisors and industry professionals.
- Implementing transparent communication channels to promote inclusivity and cohesion.

GITAM AERO ASTRO CLUB
